flash cards allow students and practitioners of acupuncture to test themselves on the channels and extraordinary vessels of acupuncture

the curriculum of most schools of chinese medicine is usually broken down into the following topics concerning the theory of chinese medicine physiology of the internal organs aetiology diagnosis patterns of disharmony of the internal organs in addition the acupuncture curriculum is based on the study of the channels and points within

each of these topics various parts of the body are discussed for example when studying diagnosis the subject is broken down into interrogation observation palpation and auscultation within each of these broad areas students study the diagnostic elements of specific areas the result is that areas become disjointed and there is nothing to connect elements of channels and points relevant to specific areas giovanni maciocia wrote the energetics and treatment of body areas the vertex with the purpose to turn this attitude on its head and to place areas first so that everything else is subordinate to that this book places the vertex first and each diagnostic and therapeutic element relevant to the vertex is discussed together

the management of infertility using acupuncture is an expanding area of practice and one which is frequently rewarding for tcm acupuncture practitioners acupuncture for ivf and assisted reproduction has been specially prepared to meet the growing demand for information in this area and draws upon 20 years combined experience of the authors together with the latest evidence from both orthodox medicine and tcm richly illustrated and clearly written throughout the book takes the reader through the anatomy and physiology of reproductive medicine from both an orthodox and tcm perspective and explains the underlying basis of orthodox medical fertility tests and investigations the volume then explores the pathology and aetiology of tcm syndromes and shows how common fertility related conditions such as endometriosis and male factor infertility affect assisted reproductive technology art success rates it explains in great detail how to take a reproductive medical history and successfully diagnose tcm syndromes acupuncture for ivf and assisted reproduction also provides guidelines on how to regulate the menstrual cycle in preparation for ivf treatment and shows how lifestyle can affect fertility and art success rates placing a strong emphasis on the practical aspects of patient care acupuncture for ivf and assisted reproduction contains an abundance of case history templates algorithmic acupuncture treatment pathways and patient fact sheets and will be ideal for all acupuncture practitioners working in this field a must have for the bookshelf of any acupuncturist who is ever called upon to treat fertility issues if you have room for one book this surely must be it reviewed by the acupuncture fertility centre march 2015 practitioners of all levels of experience and tcm students should find it compelling reading and an invaluable companion to their learning reviewed by stephen clarke journal of the australian traditional medicine society may 2015 this book is extremely well re searched and referenced reviewed by danny maxwell on behalf of journal of chinese medicine february 2015

the curriculum of most schools of chinese medicine is usually broken down into the following topics concerning the theory of chinese medicine physiology of the internal organs aetiology diagnosis patterns of disharmony of the internal organs in addition the acupuncture curriculum is based on the study of the channels and points as part of the energetics and treatment of body areas series maciocia turns this approach on its head and places areas first so that everything else is subordinate to that in the energetics treatment of body areas the face maciocia does just that placing the face first and each diagnostic and therapeutic element relevant to the face is discussed together

this colour textbook enables acupuncturists to diagnose and treat physical and emotional ailments in babies children and teenagers it draws on the author s extensive clinical experience to provide solutions to a wide range of conditions including asthma allergies bedwetting digestive issues adhd and depression

this book is a collection of givoanni s insights into chinese medicine based on his 39 years of clinical experience in the uk and usa the book covers a wide array of topics ranging from interesting case histories to long discussions on diseases in particular autoimmune diseases the functions of the triple burner the classification and treatment of heat and the functions and pathology of the shen and hun

the handbook of complementary and alternative medicine is acknowledged to be the most authoritative and complete guide to complementary medicine available the result of extensive research it provides a detailed picture of the status of alternative and complementary medicine in the uk and internationally the handbook examines the developing social position of complementary medicine including legal political scientific educational and demographic aspects and considers why people choose complementary therapies how many do so and what

happens during and after their treatment for each therapy there is a concise review of the theoretical practical and research aspects written in collaboration with a leading practitioner and providing an authoritative introduction to the field the book also includes an invaluable resource guide covering all the significant colleges professional bodies and societies in this area of medicine and detailing over 250 organizations as well as an extensive glossary and bibliography this third edition has been extensively rewritten expanded and updated and reflects the dramatic increase in complementary medicine over the past years in the uk alone there are more complementary practitioners than general practitioners now it charts the growing level of interest among medical professionals and the general public the coverage of research has been extended new sections have been added dealing with the uk national health service and education the handbook is an invaluable reference source for all medical practitioners including nurses reseachers and administrators as well as members of the general public who want to make an informed choice about complementary medicine
